

Dear Parents,

The privacy of students and minors is protected by law, and this applies to photographs taken in school and posted in public. It is valuable for students, parents, and the school to highlight and share our classroom work, field trips, and other experiences with the community. We plan to design a ten-minute slide show that will play during our benefit breakfast in November. Please respond to this email granting permission to display photos during our House Calls, Benefit Breakfast, or in our newsletters, on our website, or other school events. First names only will be used, if at all.

Student's Name:

_____ I give my permission for pictures of the student named above to be used in school publications and on its website.

_____ I DO NOT give my permission for pictures of the student named above to be used in school publications and on its website.
